

June 2, 2003

Ms. Marilyn C. Kray
Vice President, Project Development
Exelon Nuclear
200 Exelon Way
Kennett Square, PA 19348

Dear Ms. Kray:

The purpose of this letter is to inform you that the Nuclear Regulatory Commission (NRC) is revising its guidance with respect to the need to evaluate alternative energy sources in an early site permit application (ESP). The Commission has determined, and will clarify, that an ESP applicant need not include an assessment of alternative energy sources in its environmental report. For example, the NRC's position will be articulated in the upcoming proposed rulemaking on *Title 10 of the Code of Federal Regulations* (10 CFR) Part 52, expected to be published in the *Federal Register* later this summer. We want to inform you of this development so that you can make an informed decision as to whether to include consideration of alternate energy sources in Exelon Generation's (Exelon) application for an ESP at the Clinton site.

If further assistance is necessary, please contact Nanette Gilles at 301-415-1180.

Sincerely,

/RA/

James E. Lyons, Director
New Reactor Licensing Project Office
Office of Nuclear Reactor Regulation

Project No: 718
